

AID ATLANTA

2022 COMMUNITY PARTNER PACKET

Welcome to

AID ATLANTA

AID Atlanta has been providing HIV/AIDS-related services, care and education since its inception in 1982. The agency was established in response to the devastating impact that HIV/AIDS was having in Atlanta. In the face of fear and bigotry, the handful of volunteers provided personal care and information about HIV/AIDS. Today, AID Atlanta offers a broad range of direct medical and primary care services, and has grown to be one of the most comprehensive AIDS service organization in the country.

The mission of AID Atlanta is to reduce the amount of new HIV infections and improves the quality of life of its patients and clients by breaking barriers and building community.

Health Care Center, Primary Medical Clinic and Pharmacy

To provides primary medical care and HIV treatment regimens to those who are living with HIV, allowing patients to be healthy and achieve viral suppression is our ultimate goal. 82% of patients/clients have viral loads below levels of detection, still we strive for 90% of all patient/clients. Additionally, AID Atlanta provides full-service, on-site pharmacy services at our Main office and Newnan, through our affiliation with AHF Pharmacy. Clients receive comprehensive educational, adherence, and nutrition counseling explaining all aspects of living with HIV.

Prevention, Education, and Wellness

Providing current, correct, and verifiable information about HIV/AIDS to stakeholders is the core of our education programming. We offer comprehensive Wellness, Testing and Referral services through the following programs:

- Counseling Testing and Referral Services are free, rapid, confidential
- AIDS & STI Infoline staffed by trained volunteers and staff answering questions about HIV
- PrEP Therapy Clinic--Georgia's first PrEP Clinic for uninsured/underinsured high-risk clients
- AIDS 101 Awareness Seminar presents topics on HIV/AIDS in group experiential learning.

Client Services

Client services program staff work to improve health outcomes by ensuring clients have access to medication, housing, food, and other basic needs. Medical case managers are strategically located with our health care centers and throughout Greater Atlanta and some county boards of health to ensure immediate linkage to care and support long-term retention in care. Other main areas of supportive services are: emotional wellness, AIDS Drug Assistance Program, housing and referral assistance.

Leadership, Development and Finance

Over 85% of the agency staff are dedicated to the achievement of our mission. However, programs and services at AID Atlanta exist because of the supportive administrative crew.
